DETERMINATION OF CUSTOMS VALUES OF WATER BASED ACRYLIC TYPE SELF ADHESIVE TAPE (BOPP/OPP) AND HOT MELT RUBBER BASED SELF ADHESIVE TAPE IN JUMBO/ LOG ROLLS OR IN RETAIL PACKING, UNDER SECTION 25-A OF THE CUSTOMS ACT, 1969.

No. Misc./27/204 -II

Dated: 04-10-2016

(VALUATION RULING NO. 944/2016)

In exercise of powers conferred under Section 25-A of the Customs Act, 1969, Customs values of water based acrylic type self adhesive (BOPP/OPP) and hot melt rubber based self adhesive tape in jumbo/ log or in retail packing, are determined as follows:

2. Background of the valuation issue: The custom values of water based acrylic type self adhesive (BOPP/OPP) and hot melt rubber based self adhesive tape in jumbo/ log or in retail packing, were earlier determined vide Valuation Ruling No 809/2016 dated 25.01.2016. There were several representations from different importers and local manufacturers, for determination of customs value of the subject items. The importers have claimed that the prices of subject items are showing down ward trend in the International market hence existing valuation ruling, which is over seven months old is required to be revised in the light of honorable High Court of Sind, at Karachi's orders dated 10.11.2015 in Constitutional Petition No. D- 6918/2015. However on the other hand the local manufacturers contended that customs values determined vide Valuation Ruling No 809/2016 dated 25.01.2016 Since was on lower side and request to enhance the customs value. Since 90 days have passed and a number of representations were received from commercial importers and local manufacturers regarding values determined in the valuation ruling dated 25.01.2016, hence an exercise was initiated to re-determine the values of subject items.

3. **Stakeholders' participation in determination of Customs values:** Meeting with all the stakeholders including importers, local manufacturers and representatives from clearance Collectorates, was held on 28.6.2016 and 15.8.2016 to discuss the current international prices of the subject items. The view point of all participants was heard in detail and considered to arrive at Customs value for water based acrylic type self adhesive (BOPP/OPP) and hot melt rubber based self adhesive tape in jumbo/ log or in retail packing.

4. **Method adopted to determine Customs values:** Valuation methods provided in Section 25 of the Customs Act, 1969 were duly applied in their regular sequential order to address the particular valuation issue at hand. The transaction value method as provided in Sub-Section (1) of Section 25, found inapplicable in light of the wide variety of invoices submitted at import stage the veracity of which could not be ascertained fully, hence requisite information required under law was not available to arrive at the correct transaction value. Identical / similar goods value method provided vide Sub-Sections (5) & (6) of Section 25 *ibid* were examined for applicability to determine Customs value of subject goods, this data provided some references, however, it was found that the same cannot be solely relied upon due to the absence of absolute demonstrable evidence of qualities, and quantities of commercial level etc., and also it was observed that importers usually provided misleading description while declaring goods, as other types and varieties of similar goods to avoid the application of valuation ruling. Information available was, hence, found inappropriate. In line with the statutory sequential order of Section 25, this office then conducted a market inquiry using Deductive Value Method under Sub-Section (7) of the Section 25 of the Customs Act, 1969, however, it was found that the determination of Customs value could not be based solely upon this method either. Therefore, valuation method provided vide Section 25 (8) of Customs Act 1969, could not be applied as the conversion cost from constituent materials and allied expenses, at country of export were are not available. Finally, PRAL database, market information and international prices through Web were examined thoroughly. All the information so gathered was analyzed for determination of Customs Value of the subject good. Consequently, the Fall Back Method as provided under section 25(9) of the Customs Act, 1969 was applied to arrive assessable customs values of the Chemicals.

5. **Customs values for water based acrylic type self adhesive (BOPP/OPP) and hot melt rubber based self adhesive tape in jumbo/ log rolls or in retail packing;** The water based acrylic type self adhesive (BOPP/OPP) and hot melt rubber based self adhesive tape in jumbo/ log rolls or in retail packing *hereinafter specified* shall be assessed to duty / taxes at the following Customs Values :-
