DETERMINATION OF CUSTOMS VALUES OF PP (POLYPROPYLENE) FLEXIBLE INTERMEDIATE BULK CONTAINER (FIBC) JUMBO BAGS AND BOPP LAMINATED PP WOVEN BAGS AND PP WOVEN BAGS UNDER SECTION 25-A OF THE CUSTOMS ACT, 1969

(VALUATION RULING NO. 1077 / 2017)

No. Mics/13/2015-IV

Dated: 09- 03-2017

In exercise of powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Flexible Intermediate Bulk Container (FIBC) Jumbo Bags (of capacity 200 Kgs and above), BOPP Laminated Polypropylene (PP) Woven Bags and Polypropylene (PP) Woven Bags of various origins are determined as follows:

2. **Background of the valuation issue:** Consequent upon representation by local manufacturer M/s Grief Flexibles Pakistan (Pvt) Ltd and importers like M/s SKM enterprises, Karachi who referred to M/s Sadia Jabbar case, for revision of Valuation Ruling No. 837/2016 dated 20-04-2016 after lapse of 90 days, an exercise was undertaken to re-determine the Customs Values of for Flexible Intermediate Bulk Container (FIBC) Jumbo Bags (of capacity 200 Kgs and above), BOPP Laminated PP Woven Bags and PP Woven Bags, in terms of Section 25-A of the Customs Act, 1969.

3. **Stakeholders' participation in determination of Customs values:** A meeting was held on 24-01-2017, with all the stakeholders including local manufacturers of subject goods and representatives of clearance Collectorate who participated in the meetings.

4. **Method adopted to determine Customs values:** Valuation methods provided in Section 25 of the Customs Act, 1969 were duly applied in their regular sequential order to address the particular valuation issue at hand. The transaction value method as provided in Sub-Section (1) of Section 25 was found inapt in light of the wide variety of manipulated/fabricated and fake invoices produced at import stage, hence requisite information required under law was not available to arrive at the correct transaction value. Identical / similar goods value method provided vide Sub-Sections (5) & (6) of Section 25 ibid were examined for applicability to determine Customs value of subject goods, this data provided some references, however, it was found that the same cannot be solely relied upon due to the absence of absolute demonstrable evidence of qualities, and quantities of commercial level etc., and also it was observed that importers usually provided misleading description while declaring goods, as other types and varieties of similar goods to avoid the application of valuation ruling. Information available was, hence, found inappropriate. In line with the statutory sequential order of Section 25, this office then conducted a market inquiry using

Deductive Value Method under Sub-Section (7) of the Section 25 of the Customs Act, 1969, however, it was found that the determination of Customs value could not be based solely upon this method either. Therefore, valuation method provided vide Section 25 (8) of Customs Act 1969, could not be applied as the conversion cost from constituent materials and allied expenses, at country of export were are not available. Finally, Pral database, market information and international prices through Web were examined thoroughly. All the information so gathered was analyzed for determination of Customs Value of the subject good. Consequently, the Fall Back Method as provided under section 25(9) of the Customs Act, 1969 was applied to arrive assessable customs values of Flexible Intermediate Bulk Container (FIBC) Jumbo Bags (of capacity 200 Kgs and above), BOPP Laminated PP Woven Bags and PP Woven Bags.

5. **Customs values for Flexible Intermediate Bulk Container (FIBC) Jumbo Bags (of capacity 200 Kgs and above), BOPP Laminated PP Woven Bags and PP Woven Bags of various origins are hereinafterspecified** shall be assessed to duty / taxes at the following Customs Values : -
