No.Misc/29/2012-II /519

Dated: May14,2018

(VALUATION RULING NO.1304 2018)

In exercise of powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Linear Alkyl Benzene Sulphonic Acid (Soft & Hard type) are determined as follows:

2. **Background of the Valuation Issue:** Earlier the customs values of Linear Alkyl Benzene Sulphonic Acid (Soft & Hard type) were determined vide Valuation Ruling No. 999/2016 dated 22.12.2016, which were later revised vide Order-in-Revision No.283/2016 dated 02-01-2017. As the ruling was old and prices in international market have appreciated therefore, it was decided to take up the issue of re-determination of customs values of the subject item.

3. **Stakeholders participation in determination of Customs values:** Meeting with stakeholders including importers, representatives from Pakistan Chemicals and Dyes Merchants Association (PCDMA) and representatives from field formations was held on 24-04-2017, to discuss the prices of the subject goods. The importers / stakeholders had been requested to submit the following documents before or during the course of stakeholders meeting so that customs values could be determined:

- i. Invoices of imports during last three months showing customs value.
- ii. Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- iii. Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- iv. Copies of Sales Tax Invoices issued during last four months showing the difference in price (excluding duty and taxes) to substantiate their contentions.

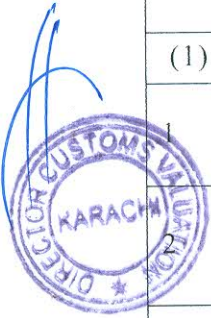

4. During the meeting the stakeholders stated that although the value of the subject item has slightly increased in the international market, however, they requested that the values determined vide the existing valuation ruling may be maintained. The view point of all participants was heard in detail and considered to arrive at Customs values of the subject goods.

5. **Method adopted to determine Customs values:** Valuation methods provided in Section 25 of the Customs Act, 1969 were duly applied in their regular sequential

order to arrive at customs values of subject goods. The transaction value method as provided in Sub-Section (1) of Section 25 of the Customs Act, 1969 was found inapplicable due to wide variation of values displayed in the import data. Thereafter, identical / similar goods value method as provided in Sub-Sections (5) & (6) of Section 25 ibid were examined for applicability to the valuation issue in the instant case. The wide variations in declarations were observed. Information available was hence, found inappropriate. In line with the statutory sequential order of Section 25, this office conducted market inquiries under Sub-Section (7) of Section 25 of the Customs Act, 1969. Resultantly, Customs values of Linear Alkyl Benzene Sulphonic Acid (Soft & Hard type) have been determined under section 25 (7) of the Customs Act, 1969.
