**Determination of Customs Values of Non-Dairy Topping /Whipping
Cream Under Section 25-A of the Customs Act, 1969**

(VALUATION RULING NO. 1384/2019)

No. Misc/13/2015-I/ 12214

Dated: July 17-07- 2019

In exercise of powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Non-Dairy Topping/Whipping Cream are determined as follows:

2. **Background of the valuation issue:** Earlier the customs values of Non-Dairy Topping/Whipping Cream were determined vide Valuation Ruling No. 1266/2018 dated 02-03-2018. The Director General of Customs Valuation vide Order-in-Revision No. 36/2018 dated 28-09-2018 remanded back the case with the directions to investigate thoroughly the price, margins, international commodity price trends, the freight aspect and re-determine Customs values of subject goods under section 25-A of the Customs Act, 1969. Therefore, this Directorate General initiated an exercise for re-determination of Customs values of Non-Dairy Topping/Whipping Cream under section 25-A of the Customs Act 1969 afresh.

3. **Stakeholders' participation in determination of Customs values:** A number of meetings with stakeholders, including importers and representatives from field formations, were held in this Directorate General. The importers / stakeholders were requested to submit following documents before or during the course of stakeholders' meetings:

- i. Invoices of imports during last three months showing customs value.
- ii. Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- iii. Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- iv. Copies of Sales Tax Invoices issued during last four months showing the difference in price (excluding duty and taxes) to substantiate their contentions.

4. During the meetings, the importers contended that the prices of Non-Dairy Topping/Whipping Cream are declining in the international markets due to the decrease in the prices of the basic constituent material i.e Palm Kernel Oil. Therefore, customs values require to be rationalized in accordance with the prices in international markets. M/s Hana Dairies, importers of non-dairy cream from Vietnam contended that their declared values are correct and submitted documentary evidences i.e. Sales Tax invoices and export GDs from the country of origin in support of their contention. The importers M/s Pacific Distributors and M/s Nice Traders also requested to revise the Valuation Ruling in accordance with the international market price. The local manufacturer, M/s Venus Pakistan, however argued that the customs values determined in the existing valuation ruling are on lower side which may be enhanced. The importers further stated that being perishable in nature the goods incur extra expenses in

shape of logistics and handling. These aspects were earlier not accounted for while issuing valuation ruling. The view point of all participants was heard in detail and considered to arrive at Customs value for subject goods.

5. **Method adopted to determine Customs values:** Valuation methods provided in Section 25 of the Customs Act, 1969 were duly applied in their regular sequential order to arrive at customs values of subject goods. The transaction value method as provided in Sub-Section (1) of Section 25 of the Customs Act, 1969 was found inapplicable due to wide variation of values displayed in the import data. Moreover, the importers could not provide sufficient documents to prove that their declared values are true transactional values. Therefore, identical / similar goods value method as provided in Sub-Sections (5) & (6) of Section 25 ibid were examined for applicability to the valuation issue in the instant case but, due to wide variations in declarations, could not be relied upon exclusively. In line with the statutory sequential order of Section 25 this office conducted market inquiries under Sub-Section (7) of Section 25 of the Customs Act, 1969. The prices of subject goods vary market to market, and therefore, this method of valuation could not be exclusively relied upon either. The valuation method provided under Section 25 (8) of Customs Act 1969, could not be applied as the conversion cost from constituent materials and allied expenses, at country of export were not available. Finally, PRAL database, market information and international prices through Web of finished as well as raw materials, were examined thoroughly. Input and feedback from different stakeholders during the consultative meetings was also considered. All the information so gathered was evaluated and analyzed for the purpose of determination of customs values. Consequently, the customs values of Non-Dairy Topping/Whipping Cream have been determined under Section 25 (9) of the Customs Act, 1969.

6. Non-Dairy Topping/Whipping Cream *hereinafter specified* shall be assessed to duty / taxes at the following Customs Values:
