Determination of Customs Values of Motor Cycle Parts
under Section 25-A of the Customs Act, 1969

(VALUATION RULING NO. 1422 2019)

No.Reg.Misc/31/2007-VIII

12547

Dated: 02-11- 2019

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Motor Cycle Parts are determined as follows:

2. **Background of the valuation issue:** Earlier the Customs values of Motor Cycle Parts were determined under Section 25A of the Customs Act, 1969, vide Valuation Ruling No.967/2016 dated 16-11-2016. The Federal Board of Revenue issued CGO No.15/2019 dated 13th September 2019 and CGO No.17/2019 dated 19th September 2019 wherein the Unit of Measurement (UoM) of a number of items including a number of Motorcycle Parts for the assessment purposes was changed. Moreover, the said Valuation Ruling was three years old and fluctuations in international prices of the items were observed. This necessitated re-determination of Customs values to bring the Unit of Measurement in conformity with above CGOs.

3. **Stakeholders' participation in determination of Customs values:** Meeting with all the stakeholders, trade bodies including representatives of clearance Collectorates, was held in this Directorate General on 22-10-2019. The importers/stakeholders were requested to submit their proposals/suggestions as well as following documents before or during the course of stakeholders' meetings so that Customs values could be determined:

- Invoices of imports during last three months showing factual value.
- Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- Copies of Sales Tax Invoices issued during last four months showing the difference in price (excluding duty and taxes) to substantiate their contentions.

4. The meeting was attended by representatives of Collectorates, importers, local manufacturers and APMSPI&DA. The local manufacturers stated that the dynamics of subject commodity have changed and most of commercial importers have become manufacturer / assemblers. M/s. Atlas Honda and All Pakistan Motor Cycle Spare Parts Importers & Dealers Association submitted their suggestions that there is no price change in the international market, therefore, the Customs values in the impugned Valuation Ruling shall not be decreased. Various proposals to convert the Unit of Measurement were also discuss.

5. **Method adopted to determine Customs values:** Valuation methods provided in Section 25 of the Customs Act, 1969, were duly applied in their regular sequential order to arrive at Customs values of subject goods. The transaction value method as provided in sub-Section (1) of Section 25 of the Customs Act, 1969, was found inapplicable due to wide variation of values displayed in the import data. Moreover, no participant of meeting submitted documentary evidences to prove that their declared value was true transactional value. Hence, requisite information required under law was not available to arrive at the correct transaction value. Therefore, identical / similar goods value method as provided in sub-Sections (5) & (6) of Section 25 *ibid* were examined for applicability to the valuation issue in the instant case but due to wide variations in declarations, this method could not be relied upon exclusively. In line with the statutory sequential order of Section 25, this office conducted a number of inquiries from various markets to arrive at Customs values under sub-Section (7) of Section 25 of the Customs Act, 1969. Finally, reliance had to be made on sub-Section (7) of Section 25 of the Customs Act, 1969 to determine Customs values of Motorcycle Parts.

6. **Customs values for Motor Cycle Parts:** Motor Cycle Parts *hereinafter* specified *shall* be assessed to duty/taxes at the following minimum Customs values : -
