**DETERMINATION OF CUSTOMS VALUES OF ADULT / PATIENT DIAPERS UNDER SECTION 25A OF THE CUSTOMS ACT, 1969**

**(VALUATION RULING NO. 1888 /2024)**

C.No.Misc/09/2016-IX/**568**

Dated: **31** -05-2024

In exercise of the powers conferred under Section 25A of the Customs Act, 1969, the Customs values of Adult / Patient Diapers are determined as follows:

2. **Background of the valuation issue:** Earlier, the Customs values of Adult / Patient Diapers were determined under Section 25A of the Customs Act, 1969 vide Valuation Ruling No.1245/2018 dated 16-01-2018. However, different stakeholders requested to re-determine Customs values afresh in line with values prevalent in the international market. Therefore, an exercise has been undertaken by this Directorate to determine the same.

3. **Stakeholders' participation in determination of Customs values:** Meeting was convened on **16.04.2024** which was attended by all the relevant stakeholders. The issues pertaining to the valuation of subject goods were deliberated upon in detail in the afore-referred meeting. The stakeholders submitted their proposals and the same were considered pertaining to the valuation of subject goods.

4. **Analysis / Exercise done to determine Customs Values:** The importers contended that the Customs values of Chinese origin Adult / Patient Diapers in the Valuation Ruling No.1245/2018 dated 16-01-2018 need to be revised according to prevailing international prices. They requested to consider the downward trend in prices of raw materials as compared to prices at time of issuance of Valuation Ruling No.1245/2018 dated 16-01-2018. They submitted proposals, import and Export GDs and copies of sales tax invoices to substantiate their claim. Thereafter, market inquiry has been conducted and examined in the light of this Directorate's Office Order No.17/2014 dated 19-03-2014 and in terms of Section 25 (7) read with Section 25(9) of the Customs Act, 1969. The market inquiry suggested that there has been no significant decrease in the value of Adult / Patient Diapers. Hence, owing to increase in exchange rate since the issuance of previous VR and increase in labor cost and utilities, it was deduced that the value of Adult / Patient Diapers has increased.

5. **Method (s) adopted to determine Customs values:** Valuation methods specified in Section 25 of the Customs Act, 1969, were duly applied in sequential order to arrive at the

Customs values of subject goods. The transaction value method as provided in sub-section (1) of Section 25 of the Customs Act, 1969, was found inapplicable due to absence of information as required under sub-section (2) of Section 25 of Customs Act, 1969. Therefore, identical goods value method provided in Section 25(5) was examined for applicability to determine Customs values of subject goods. The data provided some reference; however, it was found that the same could not be solely relied upon due to absence of absolute demonstrable evidences of quantities and qualities. Information available was, hence, found incomplete. Subsequently, similar goods value method provided in Section 25(6) was examined for applicability to determine Customs value of subject goods. However, Declared Values of similar goods had shown consistent variations. Hence, this method was also found inapplicable. Market enquiry as envisaged under Sub-Section (7) of Section 25 of the Customs Act, 1969 was also conducted but could only yield results to some extent because of variations in market prices. In line with statutory sequential order of section 25, Computed value method, as provided in Section 25(8) of the Customs Act, 1969 was examined, but the same also could not be applied as the conversion cost from the constituent materials and allied expenses, in the country of export, were not available for manufacturing of Adult / Patient Diapers. Finally, the Customs values of the subject goods have been determined under Section 25(9), read with Section 25(7), and Customs Rule 121(2) of Customs Rules, 2001 which provides that the methods of valuation, to be employed under sub-section (9) of section 25 of the Customs Act, 1969 may be inclusive of those laid down in sub-sections (1), (5), (6), (7) and (8) of the said section, but a reasonable flexibility in the application of such methods would be in conformity with the aims and provisions of sub-section (9) of that section.
